

Stuck Duck Designs was started by Meghan Behen in 2016 and has grown from local craft fairs to shipping packages worldwide. Her paper flowers have been displayed everywhere from a castle wedding in Scotland, to a pop-up shop in NYC.

While paper flowers are at the root of the business, Meghan mostly loves making custom shadowboxes. Utilizing her crafting talents for commissioned work, results in one-of-a-kind treasures.

From crafting kits sent into daycare to 14-layer shadowboxes made for raffles, Meghan dedicates a lot of her time to volunteering. She and her husband get involved with the community whenever they can and loved the idea of setting up a little art display downtown in the Artist Among Us Pocket Park. Stop by the Little Free Art Gallery this holiday season to see her art.
