

LET'S CHAT ABOUT AGING IN NEWMARKET

Join Strafford Regional Planning Commission, in partnership with the Town of Newmarket, as they ask residents, "How does Newmarket provide inclusive, welcoming, supportive, and healthy environments for people of all ages?"

Ensuring a community has housing options, services, programs, amenities, recreational opportunities and other infrastructure that supports all ages living there is vital to a high quality of life. As Strafford Regional Planning Commission dives into its Communities for Healthy Aging Transitions (CHAT) project, it seeks to identify strengths towards and opportunities for each regional community providing an inclusive, welcoming, supportive, and healthy environment for people of all ages.

To accomplish this, SRPC will host a community Zoom forum in Newmarket to hear from the people that know Newmarket best, those who live and work in town. The feedback gathered will inform a community report being created for each municipality.

Please join in on April 5 at 6:30 p.m. to get involved and share your thoughts. We look forward to CHATting with you!
