How will you know what Stage is in affect?
 Stage in effect will be posted at locations entering town, on the Town Hall marquee, and in local newspapers.

WATER SAVING TIPS

Why Do We Need Levels?

To ensure adequate pressure and fire protection, storage tank must be 3/4 full. If this amount cannot be replenished during non-watering times, more restrictive hours must be established by going to the next Stage.

1. Check your toilet for leaks.
2. Install water-saving shower heads or flow restrictors.
3. Check faucets and pipes for leaks.
4. Use your automatic dishwasher only for full loads.
5. Use your automatic washing machine only for full loads.
6. Keep a bottle of drinking water in the refrigerator.
7. Water your lawn only when it needs it.
8. Water during cool parts of the day.
9. Don't wash down driveways or gutters.
10. Plant drought-resistant trees and plants.
11. Put a layer of mulch around trees and plants.
12. Cover swimming pools to reduce evaporation.
